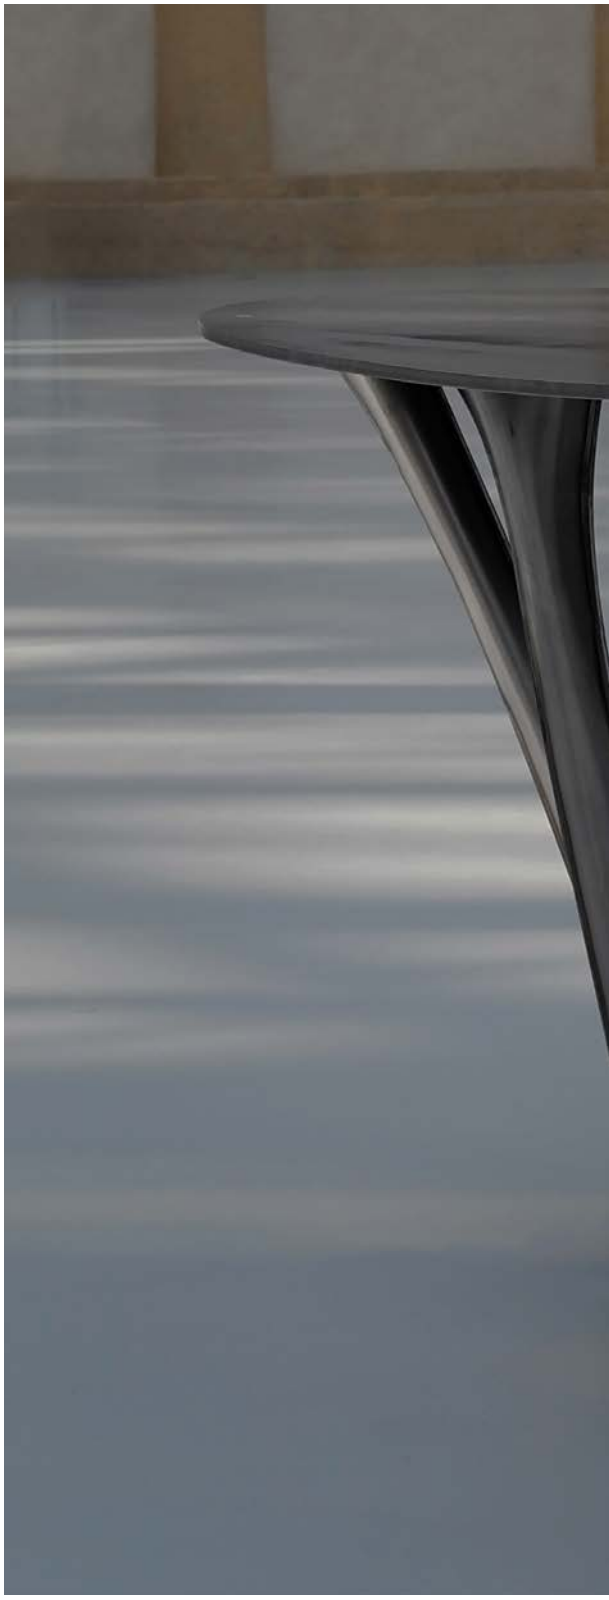
G-Tables

zieta

zieta.pl

Letter “G” in G-Tables stands for Generativeness.
Every single table is unique.

We draw the best from nature



G-Table

New version of our well-known G-Table was co-created with Beton.exe – a company with a mastery in forming extremely durable material – concrete. On the one hand, table tops give the impression of toughness and stability, on the other hand, FiDU steel construction create a feeling of lightness and fragility.

We aspire to create innovative, customised, bionic shapes. By modifying 5 features we are able to generate tailored parametric arches. They are not limited in scale. We use generated forms as table constructions supporting custom table tops. Our tables' legs are smooth delicate and frigale. But they can change the thickness and become visually stronger and dominant.

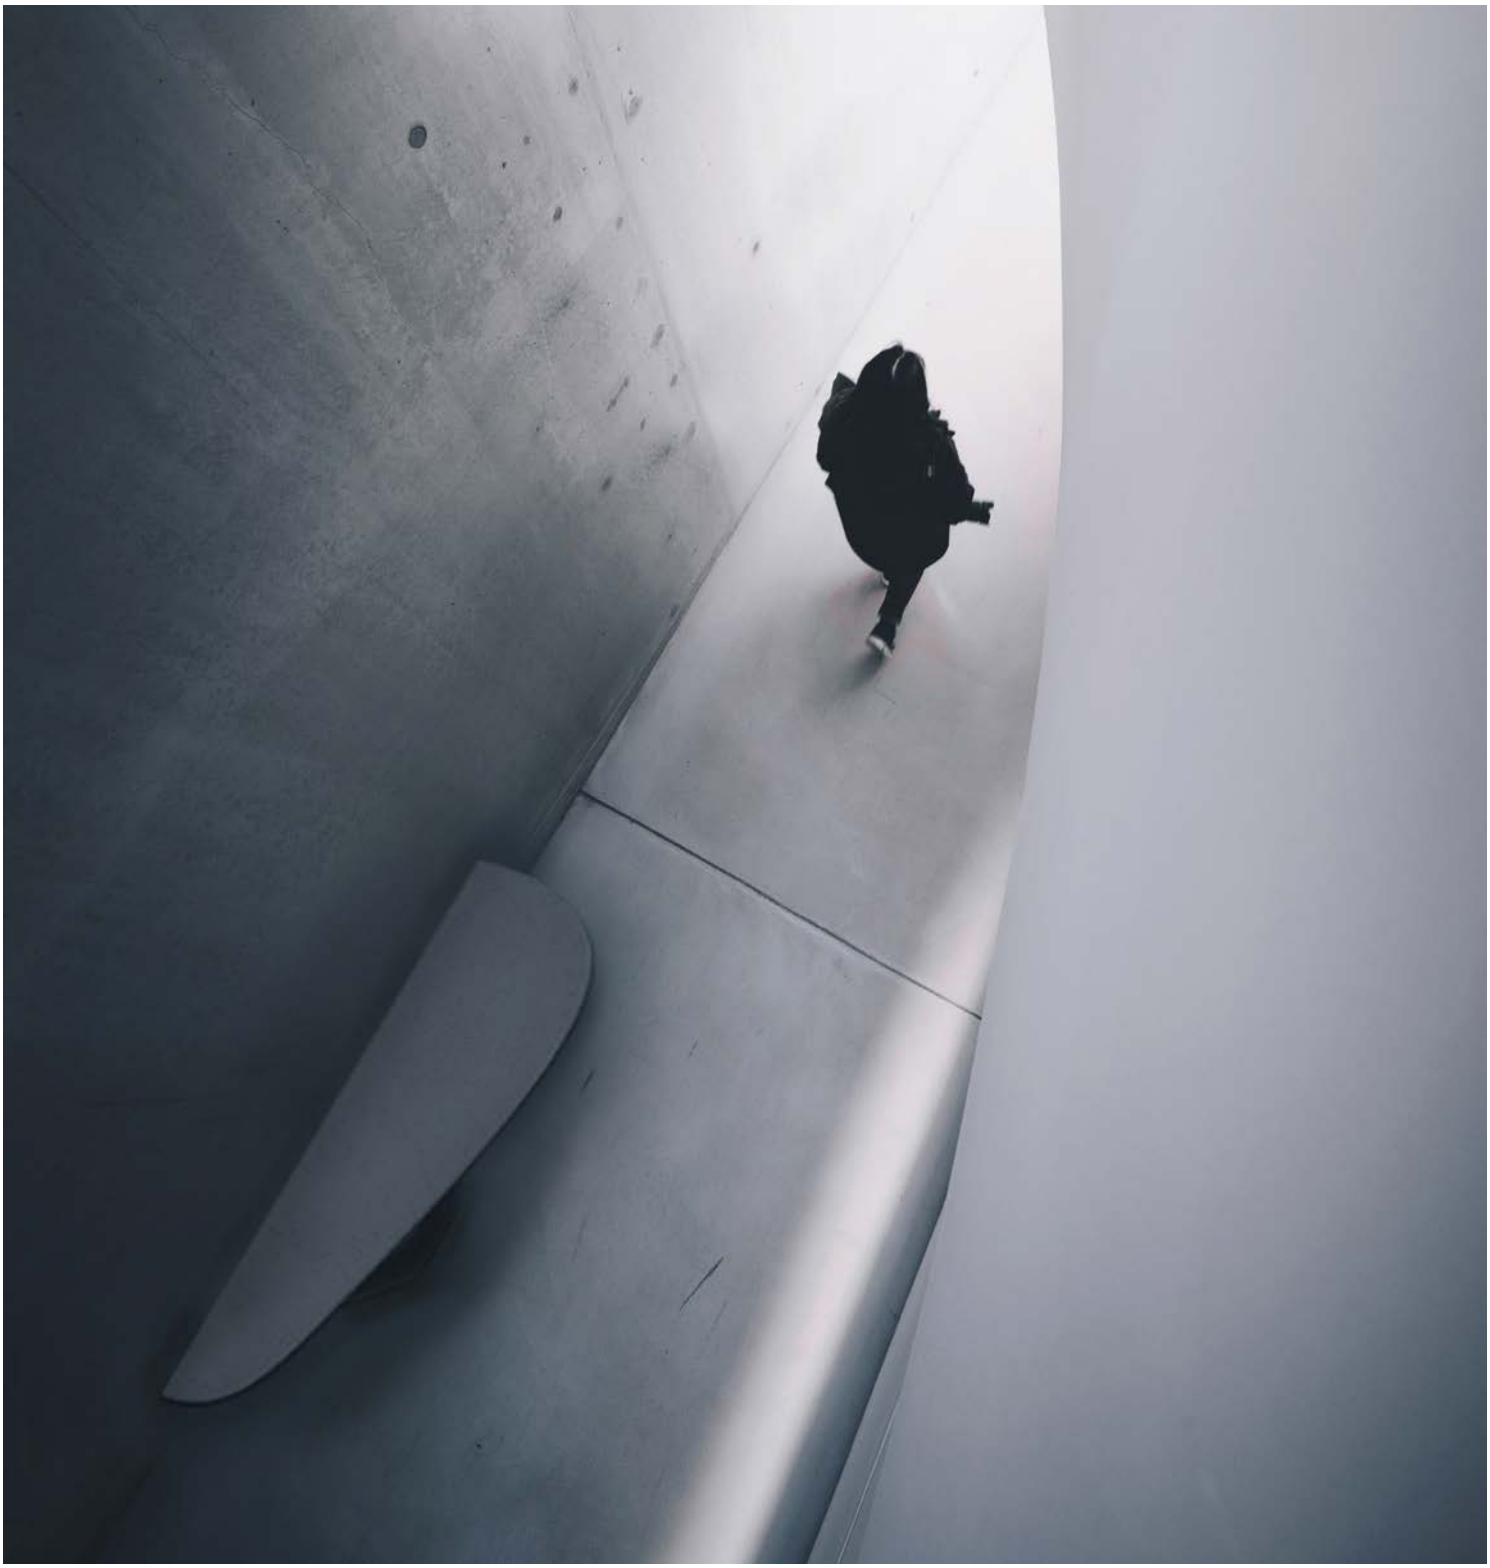
Holzano

G-Table

G-Table K is made of coppered steel and ancient Kauri wood that has been buried in marshes of New Zealand for 50.000 years. Its past was recorded in subtle and absolutely unique structure of tree rings. The pleasant scent of Kauri makes G-Table K not only an artistic object, but also an intensive sensual experience. Colors of table top by Holzano and copper base made with FiDU technology match and create a consistent entity. Kauri is the oldest wood of the world while FiDU technology is the most innovative way of metal forming. This is where the past meets the future.

G-Console
Mono

Marvelous lightness of
a single-legged version that
charms with unusual look
of lean, organic shapes.



G-Console
Duo

Furnish your interior with a remarkable double-legged decoration that will be functional and aesthetic adornment of the space - a bionic console. It's a noble mix of the spirit of sophisticated interiors and beguiling design.

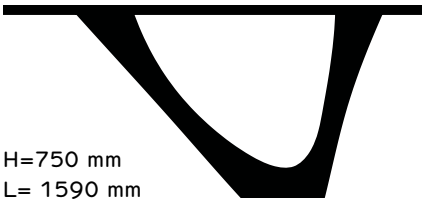
G-Console
Duo

Uniqueness never goes out of style

Products and dimensions

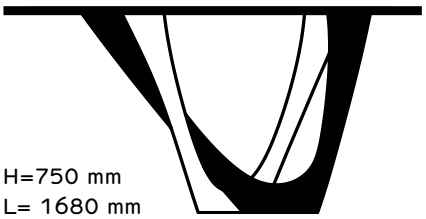
G-Tables make up a series of bionically shaped, size unlimited objects. Their parabolic base reminds of vines or roots. Generating G-Table construction in a software for parametric design allows experimenting with size and adjusting the form to customer's needs.

G-Console Mono



H=750 mm
L= 1590 mm

G-Console Duo



H=750 mm
L= 1680 mm

G Table

*Table final dimensions to be agreed with the customer
